R AND PYTHON MEETUPS, PHILIPPINES

Meetup

22 of May 2014

Al-Ahmadgaid B. Asaad

alstated@gmail.com

There will be upcoming meet ups for R User Group Philippines and Python Philippines (PythonPH) Community. Below are the details:

R Meetup

topic: R for SAS users, and planning of RUG activities
venue: 9/F Sun Life Centre, 5th Avenue corner Rizal Drive,
Bonifacio Global City, 1634, Taguig
date: Thursday, June 19, 2014
7:00 pm
outline: Introducing R to SAS users;
common SAS functions used at PPD - c/o Mark Javellosa;
group discussion on equivalent packages in R; and,
sharing of experiences of actual SAS converts.

Question? Ask here.

Python Meetup

topic: Data Science
speakers: *Jolo Balbin*
Bright.com (LinkedIn)

Stephanie Sy
Ex-Google, Ex-Wildfire
venue: 8F Visayas Room, Microsoft Office,
6750 Ayala Avenue, Makati
date: Friday, May 23, 2014
7:00 pm

Let's learn and talk about Python again. This month's meetup is about "data science". We have a couple of data scientists doing talks and the usual pizza and chat time. Invite your friends! Hope to see you guys!

We're also still selling some Two Scoops of Django books for Php 1,440 each. A must-have if you do or want to do web development with Django.
